## INJUNCTION SERVED.

B. & O. S-W. Enjoins the City from Put-  
ting Down Brick Streets.

Last Friday the circuit judge issued  
a temporary restraining order at the  
instance of the B. & O. S-W. railroad  
company in the matter of the brick  
street along its track and the papers  
were served yesterday on Mayor Jor.  
Balsley and the contractors, the Cap-  
ital Construction and Paving Co., of  
Indianapolis. The case is set for trial  
Aug. 31, the second day of the next  
term of court. This will stop the lay-  
ing of the brick streets on Cincinnati  
and St. Louis avenue until the case is  
heard by the court. Meanwhile an  
effort will be made to come to an agree-  
ment and settle the matter if possible  
before court meets and without inter-  
fering with the progress of the work.  
The Pennsylvania company also serv-  
ed notice of an injunction for the  
blocks along its line, but no restraining  
order was issued and the city can go on  
with the work. Some years ago when  
Indianapolis avenue was opened, a  
lawsuit between the company and the  
city was compromised by the railroad  
company accepting sufficient ground in  
the center of the street for a double  
track as its right of way north of the B.  
& O. S-W. crossing and the balance of  
the street became the city's property.  
The company will resist any assessment  
for improving this part of the street.

## Death of Mr. Deppert.

ing near where he died. He was an  
extensive farmer and by industry  
amassed quite a competency. He was  
an ardent member of the German  
Lutheran church of Seymour which he  
was instrumental in establishing. Mr.  
Deppert was one of our best citizens  
and he was held in high esteem by all  
that knew him. One daughter, Mrs. S.  
Clouse, survives who is entitled to full  
sympathy of all. The funeral will take  
place at 10 o'clock tomorrow forenoon  
from the residence.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages, and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to  
the medical fraternity. Catarrh being  
a constitutional disease, requires a con-  
stitutional treatment. Hall's Catarrh  
Cure is taken internally, acting directly  
upon the blood and mucous surfaces of  
the system, thereby destroying the  
foundation of the disease, and giving  
the patient strength by building up the  
constitution and assisting nature in do-  
ing its work. The proprietors have so  
much faith in its curative powers, that  
they offer one hundred dollars for any  
case that it fails to cure. Send for list  
of testimonials. Address:

## KILLED BY LIGHTNING.

William Stewart Struck While Standing  
Under a Tree.

Monday afternoon William Stewart  
aged twenty-three, was killed by light-  
ning in Finley township, Scott county.  
After dinner he went to the field with  
a team to work and a thunderstorm  
coming up suddenly he stood some boards  
up against a tree for a shelter. Light-  
ning struck the tree and ran down, cut-  
ting the skin several inches on S. W.  
arm of his head and on his foot. He was  
dead when found. The horse was e-  
shocked by the bolt, but not seriously.

When a person is losing flesh and  
wasting away there is cause for alarm.  
Nothing so worries a physician. Con-  
sumptives would never die if they could  
regain their usual weight. In fact there  
would be no consumption if there was  
no wasting of the system. The cause of  
this loss of flesh is a failure to properly  
digest the food eaten. Nine-tenths of  
all our diseases date back to some de-  
rangement of the stomach.

The Shaker Digestive Cordial will  
stop this wasting of the body. It acts  
by causing the food we eat to be digest-  
ed so as to do good, for undigested food  
does more harm than good. The Cordial  
contains food already digested and is a  
digestor of foods as well.

**VOTE ON BILL TODAY**

All Parties Have Entered Into Such an Agreement.

**TEA CULTURE IN THE SOUTH**

Hanna, of the Sound Money Conference, Confers With Secretary Gage—Naval Board About to Contract For New Vessels—Forged the Senator's Name—Gage's suggestion as to Sugar.

WASHINGTON, July 7.—The final vote on the tariff bill will be taken in the senate before adjournment today, a definite agreement, assented to by all parties, having been reached at the close of the debate yesterday.

Mr. Allison did not ask that the hour for the vote be set being content with the positive agreement that it should be done sometime today. The limitation of speeches after 1 p. m. to five minutes will bring the debate within narrow limits.

The announcement by the vice president that the agreement was perfected led to a general exchange of congratulations among senators. During the day the anti trust question was debated at length and Mr. Pettus' amendment on the subject was defeated, 26 to 33.

Mr. Allen (Neb.) again offered the amendment for a 1/2 cent bounty on beet sugar. It led to lively and somewhat personal speeches from the two Nebraska senators, after which the Allen amendment was tabled, 51 to 9, the Populists and Silver Republicans being the only ones recorded against the motion to table.

**TEA RAISING.**

Investigation of the Industry Established at Summerville, S. C.

WASHINGTON, July 7.—Secretary of Agriculture Wilson has received a report from a horticulturist whom he sent to investigate the tea farming carried on at Summerville, S. C., with a view to ascertaining the prospects of profitable growth of the plant in this country. The report says the labor question is the most important one in the economics of the business. It estimates the minimum cost about eight times as much to pick one pound of tea in South Carolina as that paid for the same service in Asia. In districts favored with sufficient heat and rains plants flourish from 15 to 20 pickings a year. In the South Carolina fields the conservation of moisture by draining is enhanced by systematic surface culture.

With careful pruning plants here should maintain their pristine vigor for 40 years, but pruning is a costly manipulation. The report urges the development of knowledge to tea raising by means of schools.

About to Contract For New Vessels.

WASHINGTON, July 7.—The board of naval bureau chiefs have about concluded to award the contracts for building the three torpedo boats authorized by the last congress and yesterday had a conference with Secretary Long to report the progress made. At present the indications are that the board will recommend the award to Hart & Hollingsworth of the contract for a large 360-ton boat of the Thornycroft type; to the Cramps of a contract for a medium size Yarrow type boat of 300 tons, and to the Bath Iron works of a small 240-ton Normand type boat.

Forged the Senator's Name.

WASHINGTON, July 7.—S. P. Williams, a young man whose home is in Bismarck, N. D., but who formerly held a clerkship in the treasury department in this city, was arrested yesterday on a charge of forging the name of Senator William E. Mason of Illinois to an application to the Pennsylvania Railroad company for two roundtrip passes from Washington to New York city. Williams protests his innocence. The police say that they have been working on the case for several days and that they caught Williams by means of a decoy letter.

Gage's Suggestion as to Sugar.

WASHINGTON, July 7.—It is learned that Secretary Gage has written a letter to Senator Allison suggesting the advisability of putting a tax of 1 cent a pound on all refined sugar made from stock imported prior to the passage of the pending tariff bill. It is the opinion of the customs officials of the treasury that this duty would increase the government revenues by several millions and that the hardship would fall on those best able to bear it.

H. H. Hanna Confers With Gage.

WASHINGTON, July 7.—Mr. H. H. Hanna, chairman of the executive committee of the Indianapolis "sound money convention," had a consultation yesterday with Secretary Gage.

day with Secretary Gage. Later, it is understood, Secretary Gage had a talk with the president. The president's decision as to whether he will send a special message to congress recommending a currency commission is expected this week.

Senator Harris.  
WASHINGTON, July 7.—Last night Senator Harris' physician said if his present favorable symptoms continue an effort will be made, probably tonight, to remove the senator to some nearby mountain resort where cooler weather prevails.

Indiana Postmasters.  
WASHINGTON, July 7.—Indiana postmasters were appointed yesterday as follows: Dover Hill, Jonathan Chandler; Gentryville, W. P. Barnett; Pleasant Plains, Joseph Shatt; Seymour, S. T. Dewees.

The One Spot on God's Earth.  
LONDON, July 7.—The Daily Mail correspondent at Cape Town says that H. W. R. Shreyner in a speech at the American banquet in celebration of Independence day, extolled the United States as "the one spot on God's earth where freedom finds its highest realization."

STRIKING MINERS.  
About Fifteen Thousand Men Out in the Pittsburgh District.

PITTSBURGH, July 7.—The strike order of the national executive board of the United Mine Workers of America was obeyed by from 10,000 to 15,000 of the 21,000 miners in the Pittsburgh district yesterday. The great struggle is now on in earnest.

Pittsburgh is the pivot point in the five states engaged in the contest, and the success of the local officials in their efforts to secure a general suspension in this district will have an important bearing on the outcome of the movement. While it is estimated that at least two-thirds of the miners have thrown down their picks, enough men are still at work, however, to seriously impair the chances, unless they can ultimately be brought out. This President Dolan confidently claims can be done.

The operators, on the other hand, are in no wise disconcerted, and assert that the strike cannot succeed. The first break in the operators' ranks was made by J. W. Steen of the O. I. C. mines at Rossville. A notice was posted that the 60-cent rate would be paid. It is not likely that the officials will allow the men to work until a majority of the operators have agreed to the miners' demands.

Great Distention in Kansas.

OSAGE CITY, Kan., July 7.—There is great distention among the miners and their families in this district. Scores subsist entirely upon the product of their gardens and many have not bread to eat with the vegetables they thus obtain, while meat is entirely out of the question. The total pay of the Carbon company for 150 men in May was \$475 and in June \$550, an average of 37 cents per man for the past year is less than \$10 per month.

Anticipating Trouble.

CINCINNATI, July 7.—Judge Taft of the United States court, at the request of the receiver of the Wheeling and Lake Erie Railway company and the Wheeling, Lake Erie and Pittsburgh Coal company, has ordered the United States marshal to prevent any interference with the operations of the road or the miners working for them. The miners had been called out by the United Mine Workers' organization.

Illinois Miners Working.

DANVILLE, Ill., July 7.—The miners employed by the Westville Coal company went out yesterday but their grievance, which was a demand for check weight, was promptly complied with, and they went back to work today. There is no sign of a strike in the Grape Creek region or anywhere in the Danville fields. The same is true at Peoria.

PANAMERICAN EXPOSITION.

Chicago Agitating One to Be Held in That City.

CHICAGO, July 7.—The question of holding a panamerican exposition was raised among a party of gentlemen during an entertainment given the Pan-American delegation at the Union League club last night. During the discussion Colonel Dickinson, ex-secretary of the world's fair and president of the Coliseum building, said: "I sincerely trust that arrangements will be made by the citizens of Chicago with the representatives from South American republics that this exposition would be brought to Chicago and held in the Coliseum. I venture the prediction that if this is done and such an exposition is held here the results from every standpoint will be more than satisfactory."

CHRISTIAN ENDEAVORERS.

Attendance Beyond All Expectations. Royal Welcome Extended.

SAN FRANCISCO, July 7.—It is already evident that the Christian Endeavor convention which opened today will be the greatest in the history of the organization. The attendance more than exceeds expectations and the royal welcome extended to the delegates inspires the success and enthusiasm of the gathering. All day yesterday trains were rolling in and were met by members of the reception committee.

Never before, not even by the Knights Templar or Grand Army, whose national reunions were held here, have arrangements been so well made, or the city so tastefully decorated as now.

Louisville and Nashville Wreck.  
RICHMOND, Ky., July 7.—The south-bound Louisville and Nashville passenger train was wrecked at Harris station, near here yesterday. A waterspout had washed the track out at this place and the train, which was making a low rate of speed, was derailed. The passengers escaped injury, but Engineer John Clark and Fireman Frank Hutter were seriously injured.

**HORRIBLE ACCIDENTS**

Streetcar Wreck on an Incline at Pittsburgh.

**TERRIBLE BOILER EXPLOSION.**

Nine People Killed and Five Seriously Injured—Head of One of the Victims Cannot Be Found—Six-Year-Old Boy Carried Up by a Guy Rope of a Balloon and Falls One Thousand Feet.

PITTSBURGH, July 7.—Four people were fatally injured and 15 or 20 others were more or less injured in a streetcar wreck on the Forbes street line of the Consolidated Traction company last night. The names of those seriously injured are: Michael Doyle, motorman, torn head torn away, two ribs and a leg broken; W. A. Manly, employed in the circulating department of The Times, scalp laid bare and hurt internally; probably die; Miss Smith, skull fractured, will die; C. C. Rogers, leg and arm broken and hurt internally; will die.

Mrs. Mary H. Wilson, Allegheny, two ribs, right leg and left ankle broken; may recover. The full list of injured is not ascertainable. The wreck occurred on the Soho hill at the time when the immense crowds which attended the fireworks display at Schenley Park was returning home.

An Atwood streetcar had gone about half way down the hill when it jumped the track, closely following it came an open summer car with a trailer, both densely packed with people. Before the second train could be stopped it crashed into the derailed car. Hardly had the first collision happened before a third car, heavily laden, came down the hill at full speed and forced its way into the wreck ahead. It was the second crash that did most of the damage and the scene was indescribable.

NINE KILLED.  
Terrific Explosion of a Threshing Machine Boiler.  
HARTSVILLE, Tenn., July 7.—A frightful boiler explosion occurred on the farm of W. A. Allen, in the Tenth district of this city, yesterday, by which nine people were instantly killed and five badly injured. The dead are: W. A. ALLEN, JAMES ALLEN, LINDSEY ALLEN, MACK TUNSTALL, ASA BAIR, PORTER AVERITT, L. L. ALLEN, LEX BAIRD, WILL ALLEY.

The latter two were negroes. The wounded are: Calhoun Stone, leg broken in two places; George Dice, badly scalded and mangled; will die. John Foley, colored, badly mangled; will die. Albert Haley, colored, leg broken. Sam Wheeler, colored, leg broken.

Mr. Allen and his men were just concluding the work of threshing wheat and were preparing to leave the field when the explosion occurred, from what cause is not known. Some of the victims were mangled beyond recognition, and pieces of the boiler were blown 700 yards. Lindsey Allen's head was blown away and has not been found. Wheeler, Dice and Foley are certainly fatally injured. W. A. Allen was a member of the Trousdale county court and a prominent man in his section.

CHILD'S TERRIBLE FALL.

He Was Carried a Thousand Feet in the Air by a Balloon.

SAN FRANCISCO, July 7.—Bertram Hill, 6 years old, was the victim of a sensational balloon accident. In company with Miss Olney he went to Blair's Point, near Oakland, to witness a hot air balloon ascension. When the balloon shot up into the air the child clung to one of the guy ropes and was carried up.

The aeronaut heard the shouts of the people not to cut loose his parachute.

The light in the window after midnight, but too frequently tells the old, old story of the awful torture of approach, ing, motherhood for some ill-prepared women. All too often death lurks on the doorstep. This is a story that would seldom be told if women would but properly prepare themselves for the duties of motherhood. If a woman will take the right care of the organs that make motherhood possible, approaching maternity will have no fears for her. Nature intended that all women should be able to bear children and that this duty should be a cruel torture. Woman's own ignorance and neglect have made it so.

All weakness and disease of woman's reproductive organism are cured by Dr. Pierce's Favorite Prescription. It acts directly upon these organs. It makes them strong and healthy. It prepares them for approaching maternity. It always the discomforts of the expectant period. It makes baby's coming easy and comparatively painless, and insures the health of the child. All good druggists sell it.

"I have had three miscarriages," writes Mrs. J. L. Shaffer of New York City. "Last Spring I received one of your Menstrual Regulators in which I found your 'Favorite Prescription' recommended to prevent it. I took eleven bottles of it and have a bright boy five months old, which I owe to God and your medicine."

What woman does not wish to make her family cares as light as possible, consistent with her family's well-being? The greatest care of all is the fear of sickness. It is a common saying amongst conscientious mothers: "As long as the children are well, I don't mind anything else." For these mothers Dr. Pierce's Common Sense Medical Adviser would prove "The shadow of a great rock in a weary land." This book of 1,000 pages, profusely illustrated, gives plain talks and kindly sensible medical advice. It is peculiarly valuable for mothers of young daughters. More than a half a million copies of this book have been sold for \$1.50 each. Now there is an enormous edition to be given away. Send at once stamps, to cover cost of mailing only, for a copy in paper cover. For cloth binding, send a one-cent stamp. World's Dispensary Medical Association, Buffalo, N. Y.

and obeyed, not knowing the reason. When 1,000 or more feet up he heard the boy's cries and saw a cap come fluttering down. He called out to his untiring companion to hold on, and made every effort to save him, but in vain, for soon the child's body shot by him and was crushed out of shape when it struck the earth.

**PEACE NEGOTIATIONS.**

Salisbury Says the Delay Is Not Without Danger.

LONDON, July 7.—In the house of lords the Marquis of Salisbury replying to Lord Connaught said the delay in the settlement of the peace terms between Turkey and Greece was entirely the fault of the former power. There was no delay so far as the concerted powers were concerned, but Turkey had carried deliberation and circumspection to such an excess that the delay was not without danger, though the danger was not immediate. They were apparently at present no nearer to a solution of the question than at the beginning.

The Marquis of Salisbury further said: "If Prince Bismarck were presiding at the conference, as he did in 1878, the result would be different. A powerful Russian army was then within a stone's throw of Constantinople and any suggestion from Prince Bismarck that a failure of the conference would result in the movement of that army undoubtedly produced that effect upon Turkish deliberation such as is desired now."

Situation Regarded as Grave.

LONDON, July 7.—All the papers comment editorially upon the new danger in the Greece-Turkish situation. The statement of the Marquis of Salisbury in the house of lords yesterday is regarded as extremely grave and as a clear intimation of the readiness of Great Britain to join in active coercion of the sultan.

MINNESOTA CYCLONE.

Town of Lowry Almost Wiped Out—No Lives Lost.

LOWRY, Minn., July 7.—A destructive cyclone passed through this place last night. Every building in the town was injured, seven dwelling houses, depot, church, elevator and butcher shop being totally destroyed, while the railroad tracks were twisted and telegraph wires torn down and part of a mill was carried away. From Lowry the storm continued in a northeasterly direction to the farm of Robert Peacock, where it made a clean sweep of all the buildings. Mrs. Peacock, her daughter Nettie and a boy named Robert McGowan were in the house, which was carried about 20 rods. All were injured, but will probably recover.

IN THE TOILS.

Louisville and Nashville Train Robber Captured.

KANSAS CITY, July 7.—George Hall, a young man arrested by Detective McAnany in a Turkish bathhouse here, has been identified as one of the train robbers who one night three months ago held up the Louisville and Nashville passenger train near Colera, Ala., and robbed the Southern Express company of \$3,000. Chief Vallins has worked on the express robbery and had a perfect description of Hall. When Detective McAnany led the man into the chief's office Vallins readily identified him. A reward of \$800 is offered for his capture.

### INJUNCTION SERVED.

B. & O. S-W. Enjoins the City from Put-  
ting Down Brick Streets.

Last Friday the circuit judge issued  
a temporary restraining order at the  
instance of the B. & O. S-W. railroad  
company in the matter of the brick  
street along its track and the papers  
were served yesterday on Mayor Jos.  
Balsley and the contractors, the Capital  
Construction and Paving Co., of  
Indianapolis. The case is set for trial  
Aug. 31, the second day of the next  
term of court. This will stop the lay-  
ing of the brick streets on Cincinnati  
and St. Louis avenue until the case is  
heard by the court. Meanwhile an  
effort will be made to come to an agree-  
ment and settle the matter if possible  
before court meets and without inter-  
fering with the progress of the work.

The Pennsylvania company also served  
notice of an injunction for the  
blocks along its line, but no restraining  
order was issued and the city can go on  
with the work. Some years ago when  
Indianapolis avenue was opened, a  
lawsuit between the company and the  
city was compromised by the railroad  
company accepting sufficient ground in  
the center of the street for a double  
track as its right of way north of the B.  
& O. S-W. crossing and the balance of  
the street became the city's property.  
The company will resist any assessment  
for improving this part of the street.

ing near where he died. He was an  
extensive farmer and by industry  
amassed quite a competency. He was  
an ardent member of the German  
Lutheran church of Seymour which he  
was instrumental in establishing. Mr.  
Deppert was one of our best citizens  
and he was held in high esteem by all  
that knew him. One daughter, Mrs. S.  
Clouse, survives who is entitled to full  
sympathy of all. The funeral will take  
place at 10 o'clock tomorrow forenoon

The readers of this paper will be

one dreaded disease that science has  
been able to cure in all its stages, and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to  
the medical fraternity. Catarrh being  
a constitutional disease, requires a con-  
stitutional treatment. Hall's Catarrh  
Cure is taken internally, acting directly  
upon the blood and mucous surfaces of  
the system, thereby destroying the  
foundation of the disease, and giving  
the patient strength by building up the  
constitution and assisting nature in do-  
ing its work. The proprietors have so  
much faith in its curative powers, that  
they offer one hundred dollars for any  
case that it fails to cure. Send for list

### KILLED BY LIGHTNING.

William Stewart Struck While Standing  
Under a Tree.

Monday afternoon William Stewart  
aged twenty-three, was killed by light-  
ning in Finley township, Scott county.  
After dinner he went to the field with  
a team to work and a thunderstorm  
coming up suddenly he stood some boards  
up against a tree for a shelter. Light-  
ning struck the tree and ran down, cut-  
ting the skin several inches on Stew-  
art's head and on his foot. He was  
dead when found. The loss was we  
shocked by the bolt, but not seriously.

When a person is losing flesh and  
wasting away there is cause for alarm.  
Nothing so worries a physician. Con-  
sumptives would never die if they could  
regain their usual weight. In fact there  
would be no consumption if there was  
no wasting of the system. The cause of  
this loss of flesh is a failure to properly  
digest the food eaten. Nine-tenths of  
all our diseases date back to some de-  
rangement of the stomach.

The Shaker Digestive Cordial will  
stop this wasting of the body. It acts  
by causing the food we eat to be digest-  
ed so as to do good, for undigested food  
does more harm than good. The Cordial  
contains food already digested and is a  
digestor of foods as well.
